

About WeDist

WeDist is a Qatar-based new generation IT Technology Distribution Company focusing on Information Technology, Physical Security systems, Networking, and ICT.

Strategically located at Qatar's Freezone, WeDist serves as a vital link for the continuous flow of technology solutions and services from leading Global Technology Vendors to Resellers, Traders, System Integrators, and Service Providers across the Middle East and Africa Region.

Mission Statement

We believe a green business is a commitment to the society and the planet we live in by focusing on an ecosystem for the long-term health of the community as a priority over profitability.

The team at WeDist has always been convinced of the relevance of, as well as our responsibility in handling IT products. It is our mission to promote and accelerate Sustainable Hardware Solutions by providing the right technology at the right worth that will add value for our customers.

Our Vision

- ▶ To empower our customers and deliver world - class service.
- ▶ We aspire to make the technology from around the world available to all and also introduce the local technology to the world.
- ▶ Become the most esteemed and sustainable Global Technology Solutions Distributor.
